- Mixed Recycling

Additional services

- Food
- Glass
- Paper
- Coffee Grounds
- Flexible Plastics
- Clearances
- Toner & Printer Cartridges
- More services available

Office Case Study

Yellow Zebra Safaris

Yellow Zebra is a luxury adventure travel company specialising in 'Safari' Africa, with its office based in Kingston Upon Thames. Already with a strong conservation presence in Africa, Yellow Zebra has a mission to become a leading sustainable business within its local community in the UK.

Their challenge

The key goal within the business is to make recycling less confusing for the team. Yellow Zebra wanted each member to be educated in order to avoid any contamination while ensuring everyone felt empowered to practise good recycling standards.

Our solution

First Mile work closely with YellowZebra to help them achieve their goals by:

- ✓ Co-creating a bespoke Recycling Guide to indicate which bin the most commonly used types of waste produced by the office should go into.
- ✓ Providing monthly recycling reports which can be downloaded and shared across the business to inform them of their recycling progress and inspire everyone to do more.
- ✓ Setting up trial streams to help ease confusion and reduce waste from cartons / Tetra Paks and coffee cups.

Results (over 12 months)

"We are so impressed with First Mile's whole operation - the great job they are doing in recycling waste that would otherwise go to landfill, how they are run and their high level of customer service. It's easy to speak to someone friendly and helpful if we have any questions, deliveries and collections are prompt and the service runs efficiently. By working with First Mile we have been able to recycle an increasing number of different items and reduce our general waste - something we all feel passionate about here at Yellow Zebra."

~ Abi Dar, Yellow Zebra Office Manager
